

Divyansh Bhadauriya

Front-End & Full-Stack Developer (React / Node.js / MERN)

Noida, Uttar Pradesh, India | +91 78973 50468 | divyanshbhadauriya899@gmail.com | linkedin.com/in/divyanshbhadauriya | github.com/divyanshbhadauriya1319411

SUMMARY

Front-end focused full-stack developer with hands-on experience building production React applications, REST APIs, and MERN-stack systems. Strong foundation in JavaScript, Python, data structures, and modern web tooling (Docker, Vercel, Render). Currently completing an intensive MERN full-stack internship; has independently shipped multiple deployed projects including a recruitment-agency website, an AI computer-vision system, and full-stack marketplace apps. Seeking a Software Engineering role at Google to apply strong problem-solving skills and a fast learning curve to large-scale, high-impact products.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, TypeScript, HTML5, CSS3, SQL
- **Front-End:** React.js, Redux, Tailwind CSS, SCSS, Vite, Responsive/Mobile-First UI Design
- **Back-End:** Node.js, Express.js, REST API Design, FastAPI (learning), Django (learning)
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git/GitHub, Docker, Vercel, Render, Postman, CI/CD basics, Linux/Bash
- **AI/ML Exposure:** Computer Vision (OpenCV, MediaPipe), TensorFlow, PyTorch, LLM/GenAI Application Development
- **Practices:** Agile/Scrum fundamentals, Code Review, Debugging, Performance Optimization

EXPERIENCE

Full-Stack Developer Intern – MERN & Python Stack

Jan 2026 – Present

Ducat India, Noida

- Completing an intensive full-stack training program spanning React.js, Node.js, Express.js, MongoDB, Python, and SQL under industry mentors, with hands-on project-based learning.
- Built and integrated RESTful APIs connecting React front ends to Express/Node and Python back ends with relational and NoSQL database persistence.
- Collaborated on real-world project simulations using Git-based version control, code review, and debugging/testing practices in a team setting.

PROJECTS

RAMA International – Recruitment Agency Website

GitHub

- Built a production client website in TypeScript/React for a recruitment agency, including job listing pages, employer/candidate flows, and a responsive UI.
- Deployed and configured the project for live use, handling client requirements end-to-end as the sole developer.

Sign Language Recognition System

GitHub

- Built a real-time Indian Sign Language recognition system using computer vision and deep learning (OpenCV, MediaPipe, TensorFlow, PyTorch).
- Engineered a full-stack application with a FastAPI back end and a React + TypeScript + Tailwind CSS front end, using MongoDB and WebSockets for real-time data flow.

Rent-Drive – Vehicle Rental Platform

GitHub

- Developed a React + Vite front end for a vehicle rental marketplace with browsing, booking, and listing features, styled with SCSS.

StoreSaga – E-Commerce Web App

GitHub

- Built a React-based e-commerce storefront with product browsing and cart functionality, using Vite for fast builds and SCSS for styling.

Personal Portfolio Website

GitHub

- Designed and deployed a personal developer portfolio showcasing projects, skills, and contact information using React and modern UI practices.

EDUCATION

Dr. Bhimrao Ambedkar University (DBRAU), Agra

2024

Bachelor of Computer Applications (BCA) – Computer Science

CERTIFICATIONS

- Claude 101 – Certificate of Completion (Anthropic)
- AI Fluency: Framework & Foundations – Certificate of Completion
